DIRECTOR OF INDUSTRIES
& COMMERCE,
MADRAS, 1st June 1943.

JUN 1943
DEVELOPMENT DEPARTMENT

Dear Sivasankar,

I enclose copy of a communication addressed by me to Govinda Rao [illegible]ly to his D.O.letter dated 27th May 1943 regarding the fixation of the basic price of cocoons and the sliding scale of prices. My letter is self-explanatory. As soon as I hear from Govinda Rao, I shall submit draft notifications under sub-sections (3) and (4) of section 8 of the Silk Farm Cocoon Control Order, 1943.

(2) The basic price ~~xxxx~~ for cocoons of standard quality for any month is, as you know, linked to the index figures for working classes in Madras City which are prepared by the Statistical Officer, whose services were transferred to the Board of Revenue from this department not long ago. I got into touch with him in this connection and it is he who has worked out the basic price for June and also the sliding scale of prices for the same period. It is he who has pointed out the flaws in Mysore's methods & think that in future also he should

IX

do this work. If Government ac
my proposal to delegate their p
under section 8 to me, the duty
notifying the basic price for
standard quality cocoons and a
sliding scale of prices would
volve upon me.. In my opinion
best arrangement possible is
require the Statistical Offic
notify the basic prices etc.
my authority in the last bus
issue of the Fort St. George
for the month preceding that
the basic price is to operate
Before the prices are notified
contact would be established w
the Mysore authorities and our
culations checked with theirs.
For this purpose the basic pric
and the sliding scale should b
calculated as soon as the cost
living index figures for a par
month are available. I sugges
Government issue necessary ins
tions to the Statistical Offic
through the Board of Revenue i
the matter

Yours sincerely,

T. Sivasankar Esqr., I.C.S.,
Addl. Secretary to Government,
Development Department,
Madras.

D.O. Director of Industries and Commerce,
Madras, 1st June 1943.

My dear Govinda Rao,

Many thanks for your letter No. [illegible].8671, dated 27th May 1943 and the statement enclosed with it showing the basic price of cocoons per lb and the sliding scale of prices which you have worked out on the basis of the Madras City cost of living index.

The method of calculation followed by you was not quite clear at the outset, but it was soon discovered that you had started with a basic price of 10 annas or 120 pies per lb of cocoons ofstandard renditta 18:1 for an index of 118 and arrived at a price of 0-14-7 7/59 per lb for an index of 172.2 for April 1943 by rule of three, the effect of which has been to allow an increase of 120/118 or 1 1/59 pies per lb for each point rise in the index.

It seems to me that your method of calculation though mathematically flawless has some features in it, which may give rise to criticism. In the first place you start with an index of 118 for November 1941, an index which has been rounded to the nearest integer, but in calculating the basic price on the basis of the index for April 1943, you do not round off the index figure to the nearest integer, but you take the index to the first decimal place. It seems certainly better for the sake of uniformity in calculations if for nothing else to round off the latter index also to the nearest integer. Secondly you have allowed an increase of 1 1/59 pies per lb for each point rise in the index whereas the understansing with the Government of India is that in arriving at basic price of cocoons for any level of the Madras City index, the basic price fixed at 10 annas for an index of 118 should be increased or decreased at the rate of one pie for each point increase or decrease in the index.

I enclose a statement showing (i) the basic price of cocoons per lb for an index of 172 for April 1943, taking the price as 10 annas per lb for an index of 118 and allowing an increase of one pie per lb for each point rise in the index, and (ii) the sliding scale of prices for renditta varying from 12:1 to 28:1. The prices have been rounded off to the nearest quarter annas in each case. You will observe from the statement that the actual price per lb of cocoons for renditta 24:1 works out to 0-10-10.5. In rounding this price to the nearest quarter anna, it is a questi whether the rounded figure should be 0-10-9 or 0-11-0. I have, however, considered it desirable in such cases to give the benefit of the higher price to the cocoon rearers.

I shall be glad if you let me know by wire if you agree to my method of approach and to the statement of prices worked out by me. If so, youmay arrange to publish the prices in the Mysore Gazette and I shall also take steps to publish them in the Fort St.George Gazette. If, however, you want the prices communicated by you to be published, I shall arrange to do so on this occasion.

I have checked your calculations and there are one or two small mistakes which are mentioned below:

(i) Renditta.	Actual price as given in column 2 of your statement	The correct actual price.
17:1	0-15-5 60/1003	0-15-5 421/1003
22:1	0-11-11 187/649	0-11-11 181/649

These corrections do not, however, affect the corrected price (to the nearest quarter annas) given in the last column of the statement.

At the top of the statement the actual basic price is given as 0-14-7 5/59 which is obviously a typing error. The correct price is 0-14-7 7/59 as given in the body of the statement of sliding scale of prices.

Yours sincerely,

H.S. Govinda Rau Esq., B.A.,
Special Officer
Filature Expansion Scheme,
United India Buildings,
Bangalore City.

Cost of living index for April '43 = 172

Cost of living index for November '41 = 118

The basic price of cocoon per lb = 0-10-0+ 0-4-6 = 0-14-6.

The following sliding scale of prices will be obtained:

Renditta.	Actual price.	Corrected price (to the nearest quarter annas)
12:1	1-5-9	1-5-9
13:1	1-4-0.9	1-4-0
14:1	1-2-7.7	1-2-9
15:1	1-1-4.8	1-1-6
16:1	1-0-3.8	1-0-3
17:1	0-15-4.2	0-15-3
18:1	0-14-6	0-14-6
19:1	0-13-8.8	0-13-9
20:1	0-13-0.6	0-13-0
21:1	0-12-5.1	0-12-6
22:1	0-11-10.4	0-11-9
23:1	0-11-4.2	0-11-3
24:1	0-10-10.5	0-11-0
25:1	0-10- 5.3	0-10-6
26:1	0-10-0.5	0-10-0
27:1	0-9-8	0-9-9
28:1	0-9-3.9	0-9-3

--

(Sent by Mr.H.S.Govinda Rao.)

of Cocoons and the Sliding scale of prices of Cocoons for variation from the Standard Quality with reference to the cost of living index figure for Working classes in Madras city to enable him to notify them under sub-clauses (3) & (4) of Rule 2 of the Madras Silk Worm Cocoon Control order, 1943. The Board of Rev is requested to issue necessary instructions to the Statistical Officer in this regard.

2. The D.C. is requested to fix the price of Cocoons in consultation with the Mysore Govt with reference to the cost

of living index figure as indicated in paragraph 1 above and to arrange to publish the prices ~~from time to time in the Fort St George Gazette~~ and in the Cocoon markets fixed under the order. The first list of prices will however be ~~published~~ notified by the Port in the Fort St George Gazette. The DIBe is requested to expedite the submission of the draft notification for approval and publication by the Port before 15.6.43.

Enclosures:

No. 1596-D/43 dated 1st June 1943.

Sir,

Subject:- Industries - Sericulture - Silkworm Cocoon Control Order - Sections 8 and 9 - Draft notification - Submitted.

Reference: G.O.Ms.No. 796, Development, dated 14th May 1943.

During my last visit to Kollegal I discussed with the Assistant Sericultural Experts, the General Manager, Government Silk Filatures and the Deputy Director (Textiles), the arrangements to be made for bringing the Cocoon Control Order into operation from the 15th of June 1943. It was agreed that to begin with there should be three markets at Kollegal, Mudigundam and Kamakerai and that two additional markets should be opened in the near future at Kunthur and Hanur. It was also agreed that the markets at Kamakerai and Kunthur should be placed in charge of Marketing Officers of Grade I on account of the importance of the localities both as reeling and rearing centres and that the markets at Kollegal, Mudigundam and Hanur should be in charge of Marketing Officers of grade II, since in the case of the first two, the guidance and assistance of General Managers of the filatures would be available to the Marketing Officers. As regards Hanur, it is comparatively less important than the other centres. Agreement was also reached on the allotment of sericultural villages to each cocoon market as contemplated under sub-section 5 of Section 8, of the Cocoon Control Order. The question of assigning zones and markets to licensed buyers and allotting quotas and issuing coupons was also discussed. It was decided that since no licensing of charka reeling establishments was contemplated just at present, immediate action was not called for in so far as these establishments were concerned. As regards delegation to the Controller by Government of their powers under section 8, it was felt that it was both necessary and desirable to delegate all their powers to him. There is hardly any need for Government to concern itself with matters of detail.

On my way back from Kollegal, I visited Mysore to discuss matters with Mr. H.S. Govinda Rao, Special Officer, Filature Expansion Scheme. I discussed with him the method to be followed in the fixation of the basic prices of cocoons and of the sliding scale of prices for variation from standard quality calculated on such prices. Agreement was established on the several points at issue.

As regards the administrative arrangements for cocoon control, I was told that in Mysore there were to be three full-time Assistant Controllers working under the general guidance of the Special Officer, Silk Expansion Scheme, besides a large number of Market Officers in charge of numerous markets scattered the State over. I consider it essential that an officer should be detailed for control work in Kollegal. The Assistant Sericultural Expert I (Sri A. Ramachandra Rao) will act as my assistant in all matters pertaining to the working of the Cocoon Control

Order. Under section 10 and 11 of this Order it will be his duty to inspect the premises, godowns, etc., where cocoons or silk is stored and to call for such information relating to stock in business from licensed buyers, silk worm rearers, etc., etc., as may be required. On the Sericultural Expert joining the Department, Sri Ramachandra Rao will be required to devote his attention exclusively and solely to marketing of cocoons and to the distribution of cross-breed seed to rearers in Kollegal Taluk.

I enclose draft notifications under sections 8 and 9 of the Cocoon Control Order. I suggest that Government issue the notifications in the first instance but authorise me to do so in future.

I am addressing Government separately as regards staff and such equipment as is urgently required for the Kamakerai market.

Director of Industries & Commerce.

and markets in which licensed buyers may operate nor to notify quotas and coupons allotted and issued to licensed buyers. For the present I propose to permit the Filatures to buy in all the markets and to allot quotas to them in consultation with the General Manager, Government Silk Filatures and the Deputy Director (Textiles), Kollegal Silk Filatures provided, of course power to do so is delegated to me under Clause 9 of the Order.

VI : In exercise of the powers conferred under Clause 9 of the Madras Silk Worm Cocoon Control Order 1943, His Excellency the Governor of Madras is hereby pleased to delegate all the powers vested in Government under Clause 8 to the Controller.

NOTES

Sub: Industries - Sericulture. Madras Silk Worm Cocoon control order, 1943. — Notifications under the provisions of the Order.

C.No. 11735-D/43 Ref: Issued as D.O No. 11735-D1/43-1 d 31.5.43 from the DI&C D.O. No Nil d 1.6.43

p 1 cf

cf p 3-4 cf To Addl H.S. Please see DI&C's D.O. at pp 3-4 cf.

The Madras Silkworm Cocoon Control Ord 1943 came into force w.e.f. 15-6-1943. The DI&C was asked to submit draft notifications under the several clauses in Sec 8 of the order. and his report is awaited The DI&C has suggested that action under the several clauses of this Section could be taken by himself instead of by the Govt. It was considered however to adopt the provisions of the Mysore Control order in this regard, reserving powers to the Govt to delegate such of their powers under Sec 8 to the Controller as they may deem fit In the notes, Addl Secy had noted that the DI&C could be left to exercise the powers in clauses 1, 2, 5, 6 & 7 of Sec 8 but that action under cl. 3 & 4 for fixing the price of standard quality Cocoons and fixing and notifying a sliding Scale of prices for variation from the standard Quality of Cocoons should be taken by the Govt In his letter at pp 3-4 cf., the DI&C suggests that Govt delegate powers under cl. 3 & 4 to him, as proposed by him, he will

Arrange with the Statistical Officer to fix basic prices for Standard Quality Cocoon & Shell Quality with reg to the prevailing cost of living index figure. and to publish such prices under his authority in Collaboration with Mysore. It has been suggested also that necessary instns be issued to the Board of Revenue for the Statistical Officer to help in the matter. It is submitted that the initial notifications under all the clauses in Sec 8 may issue from Govt and powers under cl. (1), (2), (5), (6) & (7) be delegated to the Dir by notification with reg. to ~~cl~~ Sec 9 of the order. for subsequent notifications As regards cl. (3) & (4), the Statistical Officer may perhaps be instructed to arrange for the notification of the prices under his authority of Govt, as it has been decided not to delegate powers under these clauses to Dir. For orders.

A on f. 4 Cy.

B on f. 4 Cy.

Ys f. 2 n. (T)

p 2 n. (T)

Vide p 18 n. (N) on f. below

Dir sir, further report may be awaited till 8-6-43. M on f. 5 Cy

4.6.43 8.6.43

All notifications under all the clauses may be issued by the Govt in the first instance thereafter the power to issue notifications under clauses 1, 2, 5, 6, 7 may be delegated to the Director In actual practice it may be found convenient to delegate even the powers under clauses 3 & 4 to the Director because basic prices & sliding scales may have to be issued quite frequently and it may not be possible to get all the information quickly enough for the Govt.

This has been redrafted & forwarded to Govt

D.O. letter has been received for the Dir. today that

As there is a specific formula for calculating the price of cocoons there would appear to be no great harm in delegating powers under clause (8) also to the Director of Industries & Commerce. When I noted at page 18 of (N) I was not aware of the fact that the calculation of the price of cocoons had been reduced to a formula. What the Director has to do now is to fix the price of cocoons in consultation with Mysore with reference to the cost of living index. It is not necessary for Government to do this. The D.I. & C. may arrange for the notification of prices ~~through the Statistical Officer~~.

Legal may be requested to advise whether the notification can be published before the Central order comes into force on the 15.

9/6/43. Ad.S.

The notification should not issue until the D.Ic Govt of Mysore have agreed to the sliding scale of prices proposed. Advice of the D.Ic & Govt of Mysore Legal have been sought.

9/6/43 Legal

Legal Department

The quantity of cocoons for which the basic price of Rs.0-14-6 has been fixed may kindly be specified. The meaning of the expression "Renditta" which occurs in the notification is not known. Will Development kindly ascertain what it means?

K.V.R. 9-6-43

Govt of India 11736-D/43 SECRETARY 1943 LEGAL DEPARTMENT

Legal 2/p 36/

To Addl U/S

The prices specified in the notification at-

No 51 S-71(1). p 14 Cf. is for one lb of cocoon.

As regards rendita, the meaning of the term is not clear. DIRE may be consulted.

A draft T.N is put up for approval.

9.6.43

Spolia to D.I.C. 1) these prices are per lb of cocoons 2) Rendita cannot be defined but may be described as the proportion between the cocoons and their raw silk content. For the purpose of conversion the basic rendita recognised in silk trade is 18/1, i.e., 18 lbs of cocoons yield 1 lb of ~~silk~~ raw silk. The sliding scale of varying rendittas
